ABOUT ME

As a fresh software developer, I'm passionate about web development, machine learning, and data science. I love working with teams that encourage learning and growth. My goal is to create user-friendly experiences and use data to make a meaningful impact. I enjoy taking on challenges, paying attention to details, and always pushing to learn new technology.

ACADEMIC PROJECTS

QR Code-Based Attendance System

- Implemented attendance system using Next.js and MongoDB..
- Successfully addressed proxy attendance concerns through innovative QR code generation.

Kanban-Board-Task-Management

- Implemented drag-and-drop functionality for seamless task movement between columns.
